Organization Chart and Departments

Operation and project execution Management

Upon award of any project the operation team take the lead from the Estimation department and activate the rules and processes established in the company to successfully deliver the project in coordination with all functional department.

ASTRA Construction operational team operates under the authority of its operational manager currently we are mobilized and successfully operating around the kingdom with mobilization hub in the major cities.

We take pride in our operation team and field engineers assigned on sites for their capability to operate, and handover the project deliverables safely and on time with the required quality that keep meeting our clients satisfaction

Each project manager assigned on site with his dedicated separate team will have the full authority and support of the Head Office to satisfy the project needs and requirements. Each project will operate independently with separate staff involving all functional department to satisfy the different process involved from the site handing over by the client to the final closeout documents.

Operation and project execution Management

Supply Chain

PROCUREMENT TEAM

ASTRA Construction Procurement team has developed a wide range of business partnership along with different local and international suppliers.

MANAGEMENT PROCESS

Astra Procurement team has developed a supply chain management process along with our business Partners in the market which forms the essential sourcing of materials and different resources allowing our company to work simultaneously on different fast track projects and successfully hand over on time.

FINANCIAL CAPABILITIES

Considering the urgency of project delivery in the kingdom and to be a contributor in the 2030 kingdom vision ASTRA Construction financial capabilities has facilitated the procurement process and supply chain with local suppliers to ensure timely and quality delivery to all our projects.

Engineering and design department

ASTRA Construction has developed an in-house team of well experienced Engineers and designers familiar with all international and Saudi codes in the Construction Field allowing ASTRA to successfully design and execute awarded projects based on code standards and local authority requirements.

The availability of all design department in house, allows the company to execute “design Build type projects” involving all trades Civil Architecture, Electrical, Mechanical, and BIM Specialist, will result for a full coordination between all trades and the ultimate success of the project.

Quality

COMMITMENT

ASTRA Construction commitment to quality is a vital component that ensures constant and reliable performance.

RESPONSABILITY

The Quality department is an independent entity reporting directly to the General Manager ensuring to deliver the required quality to our clients as per Employer requirements and project specifications.

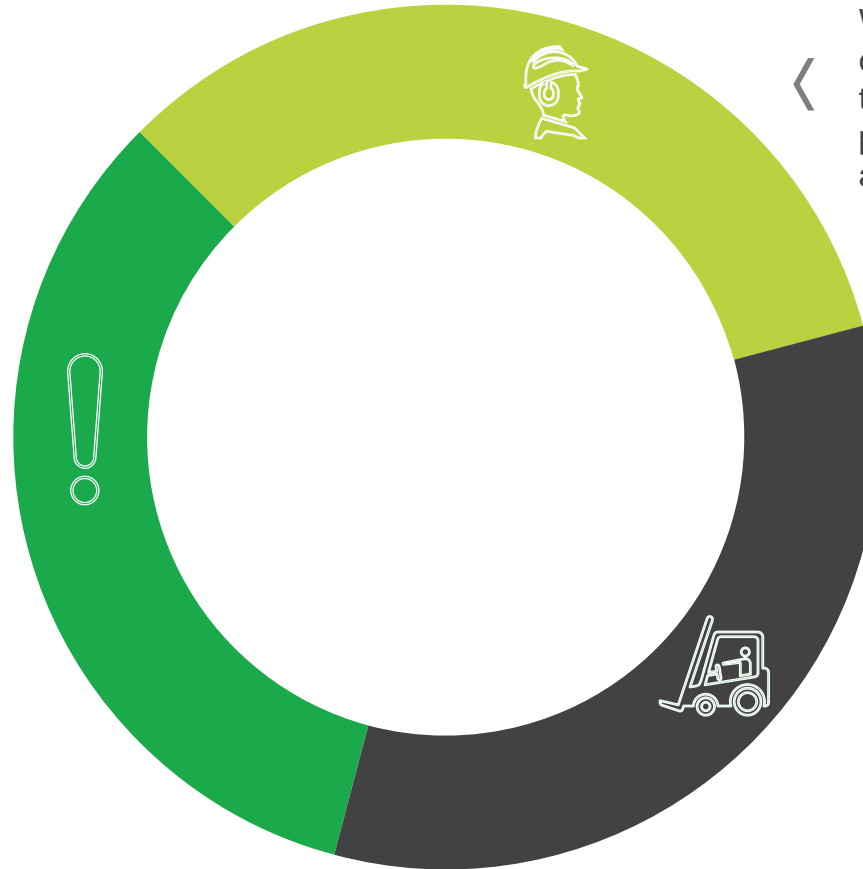

CERTIFICATIONS

ASTRA Construction has earned the ISO 9001:2015, certification in June 2020, and assured our clients and partners of getting the best quality standards the industry may offer.

Safety

ASTRA Construction management is always aiming to keep our people away from harm, by providing always a healthy and sustainable work space

We are committed to an extensive program, consistent with a professional construction practice that insures that our workers are offered the safest possible working environment, in order to minimize all construction risks.

We consider that safety is a determining factor in being successful in our performance, productivity, employee relations, and financial results. Safety officers are continuously trained to enforce our safety program and to conduct continuous safety induction to the construction team.

Environment & Sustainability

We recognize that our projects have an impact on the environment.

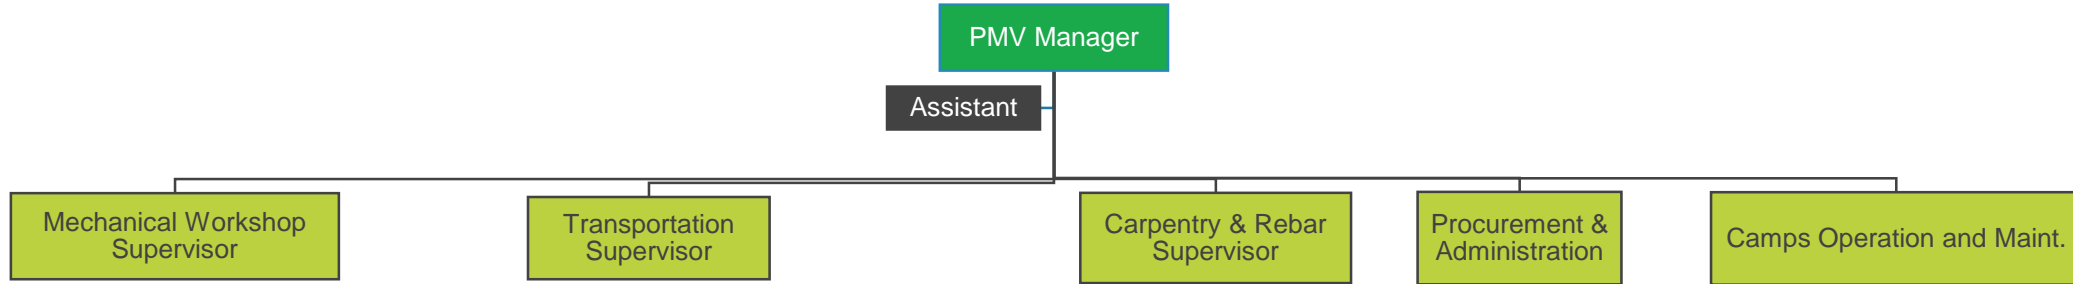

ASTRA Construction is committed to ensuring that all our projects and activities are undertaken through the adoption of a realistic and hands-on approach to environmental matters.

ASTRA Construction is a holder of ISO 14001:2015.
